

# Kapolon Braine Lomoni

## Full-Stack & AI Systems Developer

0710 878 036 | [braine.kapolon@strathmore.edu](mailto:braine.kapolon@strathmore.edu) | Nairobi, Kenya  
[linkedin.com/in/braine-kapolon](https://www.linkedin.com/in/braine-kapolon) | [github.com/code-briomar](https://github.com/code-briomar) | [briomar.online](https://briomar.online)

### PROFILE

Third-year Computer Science student at Strathmore University with a proven record of independently delivering production software for real clients, including a secure records-management system for Kilungu Law Courts and an active donor-tracking portal for Kenya's Ministry of Health. Skilled across full stack development, database design, server administration, and system security, with growing experience in cloud platforms and local AI/ML integration.

### SKILLS

- Languages:** Java, Python, PHP, TypeScript, Rust
- Frameworks & Tools:** Spring Boot, Laravel, JavaFX, Next.js, Docker, Linux, Git
- Databases:** PostgreSQL, MySQL
- Cloud:** AWS, Microsoft Azure
- Mobile:** Kotlin, React Native
- Specialties:** Local ML/AI integration, REST APIs, secure data synchronization, system administration

### EXPERIENCE & PROJECTS

- Backend Developer (Contract)** : Ministry of Health, RMCAH Donor-Tracking Portal 2025 – Present
- Independently developing a donor-tracking web portal for RMCAH (Reproductive, Maternal, Child, and Adolescent Health) projects, secured directly as a third-year student.
  - Built with a Java backend and PostgreSQL database, serving a HTML-based frontend.
- Independent Software Developer** : Kilungu Law Courts, Records & Tracking System Mid-2025 – June 2026
- Independently designed and delivered a mobile and desktop system for offender records management, from requirements through deployment.
  - Implemented secure data synchronization for sensitive case records across platforms using Java and JavaFX, backed by a MySQL database.
- Backend Developer** : iLab Africa, Strathmore University: Music Society of Kenya Project Jan – Feb 2025
- Contributed to backend development for a production system using PHP (Laravel) with a MySQL database.
  - Gained hands-on experience in server administration and collaborative, team-based development.
- Founder & Developer** : Health Records System , Alliance High School (Sanatorium) 2022 – Present
- Designed and built a digital health records system for the school sanatorium as a community service project.
  - System has remained in active daily use for 3+ years, reflecting reliability and long-term maintainability.
- Co-Founder** : Lomogan Ongoing
- Co-founded Lomogan, applying software development skills to build and grow an early-stage venture.

### EDUCATION

**BSc in Informatics and Computer Science**  
Strathmore University, Nairobi | Expected Graduation: 2028 (Currently 3rd Year)

### RECOMMENDATION

Recommended without reservation by Dr. Dickson Odhiambo Owuor, Lecturer, School of Computing & Engineering Sciences, Strathmore University: available on request.
